

# Table of Contents

Preface .....	xv
<b>SPECIAL PAPERS.....</b>	<b>1</b>
Determination of unsaturated soil property functions for engineering practice by <i>D.G. Fredlund</i> .....	3
Advances in Ground Improvement and Principles of Track Geomechanics for Future Railways by <i>B. Indraratna, P. Baral, Y. Qi, T.N. Ngo,</i> <i>C. Rujikiatkamjorn &amp; F.B. Ferreira</i> .....	21
Recent advances in the application of quasi-mechanistic approach for comprehensive design of geo-structures in Eastern Africa by <i>J.N. Mukabi</i> .....	37
Challenge to Judgement by <i>C.J. MacRobert</i> .....	59
<b>LABORATORY TESTING AND SOIL CHARACTERISATION.....</b>	<b>69</b>
Moisture adsorption of soil samples during the moisture content test by <i>N. Erriah</i> .....	71
A comparison of single and multi-interface shear strengths at geosynthetic/geosynthetic by <i>C. Sikwanda, D. Kalumba &amp; L. Nolutshungu</i> .....	77
A large California Bearing Ratio (CBR) mould to quantify the effectiveness of geogrid-reinforced subgrades by <i>G. Barnes, C. Gallage &amp; J. Rajapakse</i> .....	83
Impact of mining waste effluents on the shear strength of compacted lateritic soils used in waste containment dikes by <i>W. J. Grosskopf</i> .....	89
The mineralogical composition and shear behaviour of loess-like deposits in Mount Moorosi Village in Lesotho by <i>M. Damane, D. Kalumba &amp; L. Sobhee-Beetul</i> .....	95
Effect of matric suction on swelling behaviour of compacted expansive soils from Sudan by <i>A. Karim &amp; M. Zein</i> .....	103
Quantifying effect of stress levels on aggregate degradation using an abrasion test in a model rotating drum by <i>M.B. Mgangira &amp; A. Sambo</i> .....	109
Environmental and geotechnical depiction of foundation soils in deltaic part of Southern Nigeria by <i>N.O. Adebisi, J. Osammor &amp; G.O. Adeyemi</i> .....	113
Removal of organic colloids from soil with minimum damage to clay structures by <i>P.R. Stott &amp; S. Letanta</i> .....	119
Investigation of the probability density functions for suction potential of soils by <i>P.R. Stott &amp; E. Theron</i> .....	125
Parametric modeling of interface shear response of composite liner system in municipal solid waste landfills by <i>G. Kumar &amp; K.R. Reddy</i> .....	131
Three dimensional characterisation of the form of sand-sized particles by <i>C. Eddy, L. Tiroyabone &amp; L.A. Torres-Cruz</i> .....	139
Effect of used motor oil on the plasticity and compaction characteristics of a lateritic soil by <i>F.J.F. Ayeh, S.I.K. Ampadu &amp; F. Boadu</i> .....	145
Mechanical behaviour of used motor oil-contaminated lateritic soil by <i>F.J.F. Ayeh, S.I.K. Ampadu &amp; F. Boadu</i> .....	151
The strength and deformation characteristics of an intact and compacted lateritic soil by <i>S.I.K. Ampadu, N.K Ayeh &amp; S.F.K Dogbe</i> .....	157
Static and cyclic triaxial tests on medium sand and tire chips mixtures by <i>G. Banzibaganye, A. Becker &amp; C. Vrettos</i> .....	163
